- Rest Area
- Drinking Water
- Scenic Rest Stop
- X-Zones (enhanced terrain)

**Ride With Care:** Although Mammoth is working hard to provide you with the safest possible experience, there are natural and man-made obstructions and hazards that require you to be alert and vigilant. Using common sense and following the tips listed below will make your trip safer and more enjoyable.

1. Protect yourself against the elements. Network are required at all times for mountain biking. Gloves and protective clothing are recommended. Temperatures can vary radically with altitude change. Use sunscreen to protect yourself from high altitude sun.
2. Start out slow. You will be more quickly at Mammoth's high elevation.
3. Think! You're in a big, open, and often windy place. Stay alert.
4. Be courteous to other riders. Yield only when it is safe.
5. Watch out for skiers and motor vehicles.
6. Do not park allowed on bike trails. Stopped cars are allowed on the roads and on hiking trails.
7. Stay in control. Excess speed can be difficult to control even on our scenic trails.
8. Get acquainted with the trail map and ride on both marked for your ability. In remote areas, please stay on designated trails and do not cut switchbacks. Park passes will be provided for riding off the trail.
9. Seek shelter during thunderstorms. Stay off ridge tops, and away from the tallest trees. All towers, power line poles, antennas and large rock outcroppings.
10. We recommend you do not ride alone! First aid, mechanical assistance, and first information is available at the Adventure Center or by dialing 911 or 6 on any of our Emergency Information phone numbers on the trail map.
